How to find clinical trials: ECPC search engine

Mateusz Tylicki, Product Manager, TrialReach

ECPC AGM, 20 June 2015

How many open clinical trials for cancer are there in Europe?

How many open clinical trials for cancer are there in Europe?

5,306

*Source: EU Clinical Trials Register

How many patients are *needed* to take part in those?

How many patients are *needed* to take part in those?

3M

*Source: clinicaltrials.gov stated enrollment targets cancer trials in EU countries

What % of eligible patients take part?

What % of eligible patients take part?

5%

(average)

*Source: multiple sources

Some of the reasons for this are:

Finding the ‘right’ trials is very difficult

Information is difficult to understand

Search results demo

It’s a data / information problem

Location: *are there study sites within travel distance?*

Eligibility: *which studies may I be eligible for?*

Study information: *what is this study about?*
