Informed Consent Document

- ◆ The Informed Consent Document (ICD) is a legal document that a clinical trial participant *must* sign before entering a study
- ◆ Sometimes, *lengthy, complex, filled with jargon, written like a contract...*

Our aim: to produce a tool that supports the ICD reading and understanding

<http://iren-tool.be>

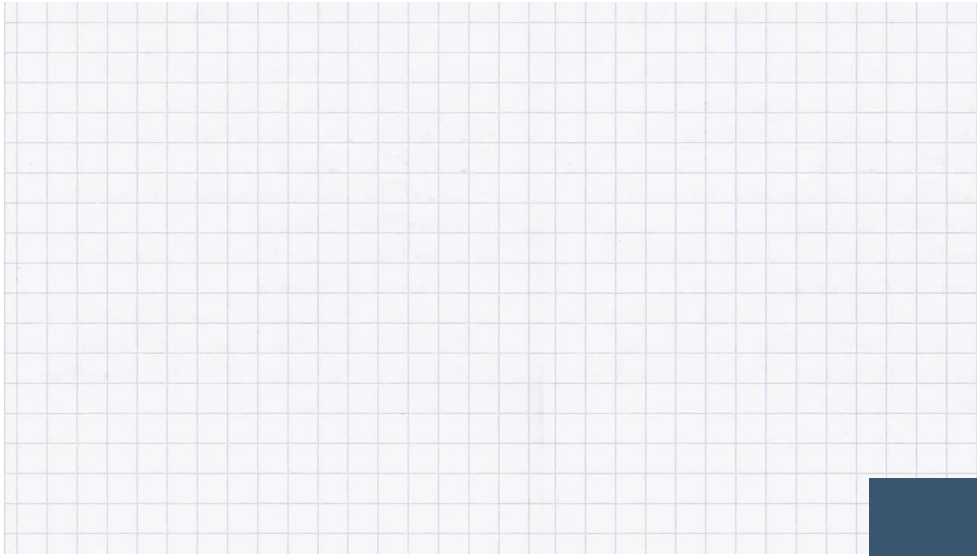

IREN: Informed on Research, **EN**gaged for better treatments

- ◆ <http://iren-tool.be>
- ◆ Free (CC: by-nc-nd)
- ◆ EN, FR, NL

- ◆ Decision aid
- ◆ Interactive tool with movies and animations
- ◆ Path : 6 chapters / 18 topics
- ◆ Around 21' of video

Understanding the ICD and facilitating interactions with professionals

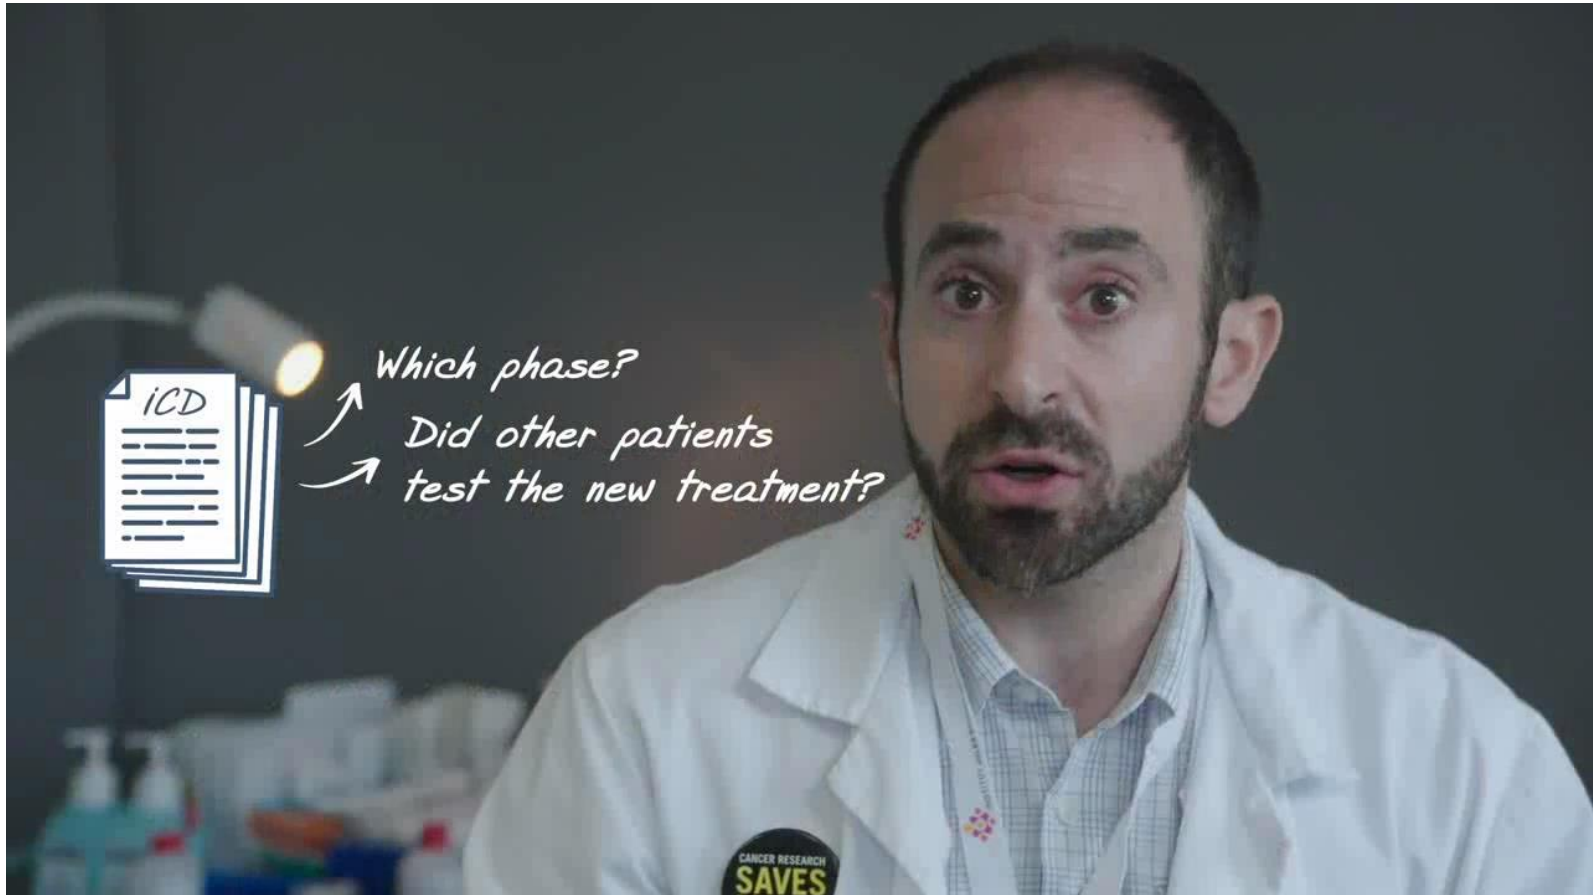

The Informed Consent Document is the cornerstone

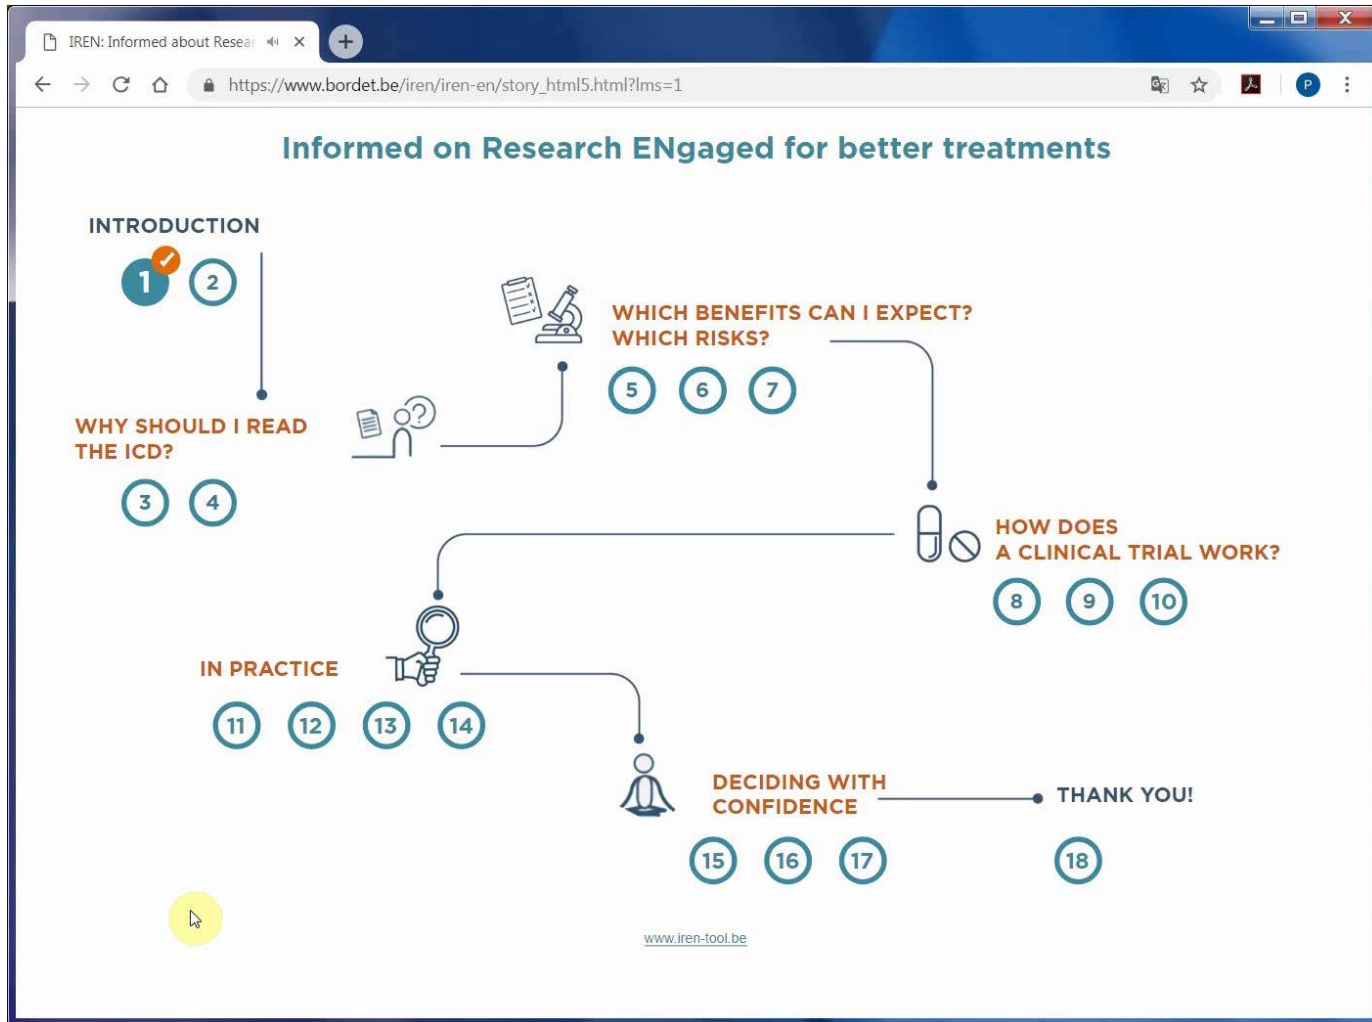

Preparing the person to make a choice and to have informed conversations

Generating interest for the purpose of the trial
