European Cancer Patient Coalition

We welcome you to the **ECPC Newsletter** where you find an overview of the latest information from **the EU cancer patient community, recent policy developments, upcoming events, and other exciting opportunities!**

It's time we cared for those who care for us

Healthcare professionals should not have to put their lives at risk when treating cancer patients. We've launched a campaign with other European organisations to **Stop Cancer at Work** and demand measures to prevent exposure, but we need your help. Show your support for the Campaign by signing our [petition](#) which is calling for the EU institutions to take action and accept the necessary legislative changes to keep healthcare professionals, patients and carers safe.

Watch the latest DIAdIC video

By providing good psychosocial and educational support to patients and their family caregivers, **DIAdIC project aims at substantially reducing the negative impact of cancer diagnosis.**

Take part in the PIONEER External Communication Survey

As part of the Big Data for Better Outcomes (BD4BO), the [PIONEER project](#) is conducted with the goal of serving as a European Network of Excellence for Big Data in Prostate Cancer. We launched a short survey that aims at gathering patient and stakeholder feedback on a number of the PIONEER communication channels and resources. The results of the survey will help PIONEER to improve its communication strategy, ensuring the right information for all stakeholders is available.
