[More Info](#)

Broadcasted from studios in Brussels, Madrid, and Amsterdam, **EU4Nutrition LIVE will bring together decision-makers, patient representatives, and health care professionals.** Together we **aim to secure optimal nutritional care** to be an integral

Break-out workshops include:

- A. Including nutrition (al care) in health policies | Brussels
- B. Implementing COVID-19 lessons learned | Madrid
- C. Beating cancer with nutrition(al care) | Amsterdam

Background

Malnutrition and undernutrition affect 33 million European citizens and places an unacceptable burden on European citizens and health care budgets. Ample scientific evidence shows that optimizing nutrition and nutritional care is a very (cost-) effective measure in both disease prevention and treatment in cancer and COVID-19.

Nutritional Care and the EU

The EU is actively working on the new EU4Health programme, the Farm to Fork strategy, EU's Beating Cancer Plan and the EU health workforce plan. Together, **these programmes provide an unprecedented opportunity to finally grant nutrition and nutritional care the important role it deserves and integrate optimal nutrition in prevention and care in the EU and its member states.**

For more information and updates on this event please visit ENHA's [Facebook](#), [Twitter](#), [Instagram](#) or [Linkedin](#) pages or the EU4Nutrition [event page](#).

Best wishes,

ECPC Team
