Dear Partners,

We warmly invite you to attend the online European Event entitled: **"The role of Research & Innovation in the enhancement of older cancer patients care & treatment options, accessibility and Quality of Life during survivorship"**.

This webinar aims at opening the discussion over R&I in the Cancer Health & Care Digital Transformation, what innovation LifeChamps' project can bring and how it can be improved

Join us to the discussion about how the novel technologies, AI in digital medicine and telemedicine can contribute to the transformation of health & care services, offering new technical skills to clinicians, that along with their traditional clinical methods can lead to person-centred and effective care & treatment, based on the personalised needs and requirements of older cancer patients.

The event, which is co-organized by the Lifechamps project, the European Cancer Patient Coalition (ECPC) and the European Parliamentary Intergroup “Challenge Cancer” will take place on **Thursday, 9th December 2021, from 14:00 to 15:30 CET** via Zoom.

REGISTRATION REQUIRED!

Draft Agenda

Hosted by **MEP Tomislav Sokol**

Welcome, housekeeping rules and introduction

Dr. Charis Girvalaki, EU Affairs Manager, European Cancer Patient Coalition (ECPC)

Welcome and introductory remarks

Dr. Tomislav Sokol, Member of the European Parliament and BECA Committee Member
